CONDITIONS OF SALE

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of The Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of The Beef Shorthorn Cattle Society, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a male or female. A twin female with a male will not be accepted, unless guaranteed in calf, or having had a calf.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates's Herd Book (Beef) by the person whose name appears as the Exposer, but every animal is sold subject to all visible faults, except where a bull is sold with only one testicle down the owner must make intimation to this effect in the Catalogue. Buyers must satisfy themselves as to the correctness of all bull calves, under 10 months old, before taking delivery. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Auctioneers at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

Notwithstanding the above, no opening bid of less than 100 guineas may be accepted for any bull. Any bull failing to receive this bid will be passed out unsold.

(Note.—The condition regarding the opening bid of 100 guineas for bulls is meantime only applicable to the February Show and Sale at Perth.)

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the Sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

6. Should any buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum per Annum* and for the keep of, and any other expense incurred by them in connection with, such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test" or "Re-Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Roup Roll.
- (b) If the option to re-test is given, the Purchaser may require the following Tests—

- (i) Single Intradermal Comparative Test for Tuberculosis;
- (ii) Agglutination Test for Contagious Abortion; and
- (iii) Complement Fixation Test for Johne's Disease.

These Tests to be carried out by a laboratory approved by the Ministry of Agriculture, Fisheries, and Food.

Notice in writing of the intention of the Purchaser to carry out such Tests must be given to the Auctioneers before, or immediately after, termination of the Sale.

Should any Vendor wish to offer additional Tests, or should any Buyer who may require additional Tests make arrangements with the Vendor prior to the Sale, details must be given to the Auctioneers and shall be provable only if included in the Auctioneers' Roup Roll.

- (c) The Tests shall be made by a Veterinary Surgeon to be mutually chosen between the Buyer and Seller or, failing their agreement, to be appointed by the Auctioneers.
- (d) The Tests shall only be made when the animal is (in the opinion of the chosen or appointed Veterinary Surgeon) in a fit state for testing and in the case of a Test for Tuberculosis on an animal in

an Attested Herd, after permission has been obtained from the Ministry of Agriculture, Fisheries, and Food (unless altered by mutual agreement).

- (e) The declaration of the chosen or appointed Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the Tests, the Buyer shall have the right to require the Seller to re-purchase the animal at the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.
- (g) In any case where the option to Test is exercised, the Auctioneers shall be entitled to retain the price until the result of the Test is declared.
- (h) The expense of any such Test or Tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within (a) three calendar months from the date of the Sale, or (b) within three calendar months of the animal reaching twelve months of age, whichever is the later date, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within the limits as prescribed above. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his Certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph)

less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull from Great Britain or Ireland.

It shall be understood that this guarantee does not operate where a bull from an Attested Herd is sold to go to Non-Attested Premises.

9. All females must be certified to have passed the Agglutination Test for Contagious Abortion within three months prior to the date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to any laboratory approved by the Ministry of Agriculture, Fisheries, and Food. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal that is known to be infected with Contagious Abortion. Any female which has not passed the Agglutination Test within three months prior to the date of Sale but which has been vaccinated, can only be accepted for the Show and Sale, provided that one of the following certificates (signed by a Veterinary Surgeon) is supplied to the Auctioneers on or before the arrival of the animal at the market premises:—

- (a) That the animal was vaccinated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or
- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale.
- (c) Any female not complying with the above Regulations must be penned separately and sold at the end of the Sale, the results of an Agglutination Test, made within three months prior to the date of the Sale, to be displayed on the Pens.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animals from Great Britain or Ireland or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate, the

Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be made and established as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Beef Shorthorn animal registered in Coates's Herd Book (Beef) and sold at this Sale, such dispute shall be referred to the Council of The Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue and in the sale-yard, must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by Selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. Commission and Levy.

- (a) The Auctioneers shall charge and deduct commission of One Shilling per guinea, also a Levy of eightpence per guinea (which shall be paid by them to the Society), from the price of all animals sold, including those which may be sold privately in their premises.
- (b) The Auctioneers shall be entitled to make a charge of £1 per animal against the owner on all animals entered but not put forward for sale.

- (c) The Auctioneers shall be entitled to charge against the owner one per cent, on the price bid or £1 per animal whichever is the greater, on all animals put through the sale ring and withdrawn.
- (d) The Auctioneers shall not be entitled to charge commission or levy on animals which for any reason are returned to the Vendor and the sale cancelled, but shall be entitled to make ordinary charges against the owner in respect of cataloguing, keep, etc.

16. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

Unlicensed Bulls of the prescribed age exposed for Sale at Auction Marts

Attention has been drawn by the Secretary of State to the increasing number of unlicensed Bulls exposed for sale throughout Scotland.

In terms of the Improvement of Livestock (Licensing of Bulls) Act, 1931, the prescribed age at which all bulls must be licensed is **10 months**, and applications must be submitted to The Department of Agriculture for Scotland, St. Andrew's House, Edinburgh, 1, not later than 28 days before the animals attain the prescribed age. There are no grounds for the belief that applications for licences do not require to be made until the animals are used for service.

All Bulls (10 months and over) exposed for sale must, therefore, be accompanied by the Licence issued by The Department of Agriculture for Scotland.

**All Reserve Prices to be handed to the Clerk of Sale before Nine
o'clock on Morning of Sale Day.**

REFERENCE TO SIREs

BANCHORY

BANCHORY ORANGEMAN (8074)—sire, Gallant Marshal; dam, Banchory Orange Pet by Millhills Zeus.

Banchory Orangeman, red, is too well known to require much comment. A rugged, good-boned type, his influence on the breed has been immense, with 23 sons averaging £2174 at Perth during the past seven years, and his grandsons either supreme or top-priced for a number of years. At ten years old, he is still very active at his new home at Dungarthill.

BAPTON

BAPTON BRITANNIA (22171)—sire, Bapton Brave Robin (17504); dam, Bapton Augusta Alison by Drummondreach Broadhooks Bold.

Bapton Britannia was reserve senior champion at Perth in 1963, where he was purchased for 1050 guineas. He is from the same family that produced the great Calrossie Welcome. In fact, the 4th dam in the pedigree is uterine sister to Calrossie Welcome.

BAPTON CLANROY (10017)—sire, Bapton Constructor (6414); dam, (432509) Bapton Marilyn Broadhooks by Kirkton Hercules (381696).

Bapton Clanroy was purchased at Perth for 3000 guineas in 1958. He was one of the two stock bulls by Bapton Constructor who were retained in this country. Bapton Constructor is now world-famous by reason of his record price of 15,000 guineas, and the sensational popularity of his progeny in Canada. Bapton Clanroy is renowned for his great strength of bone and general ruggedness, which shows in his females left in the herd. He was used for three seasons in the herd and then sold to Mr. Horace G. W. Crookes, Lornwood, Transvaal, South Africa, for whom he was reserve champion at the Rand Show in Johannesburg. He sired Coldoch Sportsman, the winner of the D. M. Stewart Challenge Trophy, and reserve senior champion, at Perth in 1961. This bull was purchased by Señors J. & G. Elordy, Argentina, for 2200 guineas.

BAPTON—Continued

BAPTON CONSTRUCTOR (6414), red, calved 25th January, 1955, bred by Mr. Cecil Moores—sire, Calrossie Constellation (396200); dam, (431434) Aldie Augusta Johanna by Aldie Jonathan Adonis (386875).

Bapton Constructor was sold for 15,000 guineas, and is surely one of the greatest Shorthorn sires ever to be produced in the breed. His record in the Louada Herd is really outstanding. He has created a new era in Shorthorn breeding. Bapton Constructor is the sire of many high-priced and prize-winning bulls, including the 30,000-dollar Louada Bonaparte, the first Canadian bull ever sold to Argentina, going to the famous Sityton Herd of Señor C. Duggan. He also sired Louada Nugget, sold for 12,000 dollars to Hi Ho, and, at the 1959 Louada Sale, 15 bulls by Bapton Constructor averaged £2500 each. He is the sire of Louada Bomber, male and supreme champion at the Chicago International in 1958. He also sired the female and reserve champion at the International, and his progeny won all the get-of-sires and groups. His stock to date has sold for over 400,000 dollars. At the 1960 Louada Sale, Louada Masterpiece, a son of Bapton Constructor out of Bapton Mavis Crocus (by Kirkton Hercules), sold to Señor Duggan, Argentina, for the top price of 15,000 dollars. Bapton Constructor was flown back in March, 1961, to Denend Pedigree Farm. He has proved himself to be one of the greatest bulls of his time. His famous grandson, Louada Rothes King (by Louada Bonaparte), is making a name for himself in the Louada Herd as one of the greatest stock bulls ever used there. His first seven bull calves, all under ten months old, were sold to average 3900 dollars each at the Louada Sale on 21st October, 1963, and, in 1964, his top son, Louada Air Raid, sold for 8000 dollars. Bapton Constructor is also the sire of Denend Glen Lake, winner of 1st prize in the March class at Perth in 1962. In 1965 he won 2nd prize and the reserve male championship at the Royal Highland Show; male and supreme champion at the R.A.S.E. Show, and, along with Rona Blythesome of Bapton (P), won the reserve for the inter-breed Burke Trophy. At the Great Yorkshire Show, he won 2nd prize and the reserve supreme championship. He won the male and supreme championships at the Royal Lancashire Show, also the "Long Silver Salver" for the best exhibit in the Beef Section. He was also supreme champion at the Royal Northern, Ellon, Turriff, and Kieth Shows—the only times exhibited so far. He is a bull of tremendous scale and substance, weighing 18½ cwt. at the end of the 1965 summer show season. He is also the sire of Denend Constellation, now the well-known junior stock bull at Louada. Another son, Denend Champion (see Reference to Sires) has recently been sold to head the famous Uppermill Herd. He was also the sire of the 1965 Perth champion, Denend Ragusa, sold to Messrs. Cadzow Brothers for 10,000 guineas.

BAPTON CROCUS ROBIN (22174)—sire, Bapton Brave Robin; dam, Bapton Mary Crocus.

Bapton Crocus Robin was 2nd in his class at Perth in 1963, when he was purchased for Ardbennie at 3500 guineas. His sire, Bapton Brave Robin, a massive bull, with tremendous bone, was a double grandson of Bapton Constructor, whilst his dam, Bapton Mary Crocus, an outstanding female of this famous Bapton Crocus family, among her many show successes, won four supreme championships. She was by Bapton Enterprise, who sold for £12,000 in the Argentine in 1953. His first crop of calves at Perth in February, 1965, averaged just over £2000, making him the top sire of the year. His sons in-

BAPTON—Continued

cluded Ardbennie Horoscope, sold for 8000 guineas to Señor C. Duggan, Argentina; Ardbennie Hornbeam, sold for 1600 guineas to the Coldoch Herd; and two others sold to Argentina at 1000 guineas each.

BAPTON GUARDSMAN (22178), red, calved 20th October, 1961, bred by Messrs. C. & N. Moores—sire, Glastullich Garrison (17459); dam, Bapton Marilyn Broadhooks (432509) by Kirkton Hercules (381696).

Bapton Guardsman, the best calf of his year at Bapton, was sold privately for 25,000 dollars to Northwood Farms, U.S.A., where he is universally acclaimed as one of the best bulls ever to leave Britain. He was used on a few females before being exported and his calves show great promise. Glastullich Garrison was a son of Bapton Balmoral, and like his sire, was a bull of great strength and substance with particularly good hindquarters. He came from the same Calrossie family which produced the great Bapton sire, Calrossie Constellation. After three seasons in the Bapton Herd, Garrison was sold at a high figure to a syndicate of Canadian breeders, including Fralawn Farms, Louada Manor Farms and Tutira Farms. Bapton Marilyn Broadhooks, a daughter of the famous Kirkton Hercules, is one of the best cows ever bred at Bapton. She comes from the same family which produced Bapton Air Pilot, and is the dam of the 4000-guineas Bapton Connoisseur, a well-known sire with Messrs. Lambell, Australia; of Bapton Clanroy, the 3000-guineas stock bull at the Coldoch, and later sold to Mr. Horace Crookies, South Africa, where he won the reserve supreme championship (to Armada of Bapton) at the great Rand Show in 1961; and of Bapton Onward Bound, sold for £4000 in Argentina in 1960. At the recent Fernwood Sale (late Northwood) the first progeny of Bapton Guardsman made practically all the top prices. A son, Denend Christmas Day, is the junior stock bull at Denend.

BAPTON LORD MAYOR (23890), red, calved 23rd January, 1962, bred by Messrs. C. & N. Moores—sire, Bapton Constructor (6414); dam, Bapton Mabel Lorraine (95994) by Bapton Roan Robin (13110).

Bapton Lord Mayor is a dark red bull, with great bone and a real sire's outlook, and with exceptionally good hindquarters. Bapton Constructor—see Reference to Sires. Bapton Roan Robin—see Reference to Sires. Bapton Mabel Lorraine, one of the top females from the herd, is also the dam of Denend Christmas Day, junior stock bull at Denend. She is a female with tremendous outlook, and is offering to be an outstanding breeder. She comes from the Garguston line of Mabels, which produced such famous bulls as Balcairn White Eagle, the sire of the great Collynie Royal Leader. Bapton Lord Mayor is now one of the sires in Miss Brown's Dipple Herd.

BAPTON ROAN ROBIN (13110), dark roan, calved 1st January, 1957, bred by Mr. Cecil Moores—sire, Bapton Constructor (6414); dam, (432497) Bapton Augusta Margaret by Kirkton Hercules (381696).

He won many prizes before being exported, and his full sister, Lavender Lass of Bapton, was the undefeated Polled Shorthorn female during the 1962 show season. Victoria May of Bapton (P), one of the three well-known full sisters (all polled daughters of Bapton Constructor), is also the dam of our junior stock bull, Royal Leader of Bapton (P), and her heifer calf (by Happy Man of Bapton) has been a prominent prize winner at the 1965 shows. In the Bapton Polled Shorthorn Herd, the two best families, without a doubt, are the Victorias and Lavenders. Captivator of Bapton (P) is a Victoria, and his sire, Constellation of Bapton (P), is a Lavender—a great blend of pedigree. Captivator of Bapton (P) is the sire of Barron of Bapton (P), a prominent prize winner during the 1965 show season. His winnings included junior champion, and reserve male and reserve supreme champion at the R.A.S.E. Show.
